EXPERIENCE

IT ADMINISTRATOR

AX CAPITAL Real Estate – Business Bay Dubai, UAE
October 2024 – Present

- Platform & Access Administration:** Manage user accounts, advanced permission controls, and role-based access security across Bitrix24 CRM, Microsoft 365, and Google Workspace for a 500+ multi-departmental workforce.
- CRM & Workflow Optimization:** Lead the implementation and configuration of CRM platforms to streamline cross-functional workflows, sales processes, and client engagement.
- Lifecycle & Asset Management:** Streamline IT onboarding/offboarding infrastructure, ensuring rapid device provisioning (laptops, desktops, peripherals) and secure access deactivation.
- Operational Support:** Serve as the central escalation point for system-related technical issues, collaborating with department heads to align digital tools with team productivity goals.

IT SUPPORT ENGINEER

AX CAPITAL Real Estate – Business Bay Dubai, UAE
May 2024 – September 2024

- Infrastructure Maintenance:** Installed, configured, and maintained hardware assets including desktops, laptops, printers, and network peripherals across corporate offices.
- Technical Support (L1/L2):** Provided rapid hardware, software, and network troubleshooting to ensure minimal system downtime and maximum operational continuity.
- Directory & Cloud Administration:** Administered user accounts and access rights using Microsoft Active Directory, Exchange, and Google Workspace admin consoles.
- Documentation & Compliance:** Maintained comprehensive IT troubleshooting guides and inventory logs while enforcing strict data protection and corporate security protocols.

IT SUPERVISOR / TECHNICAL ADVISOR

TeleEye Philippines Inc. – Quezon City, Philippines
March 2017 – March 2024

- Infrastructure & System Design:** Assisted in the strategic planning, design, and implementation of robust IT networks, systems, and core corporate infrastructure.
- Microsoft 365 Enterprise Admin:** Managed the Microsoft 365 Admin Center, overseeing complete user lifecycles, advanced licensing assignment, password security protocols, and group memberships.
- Identity & Access Management:** Configured and policed user accounts, role-based permissions, and data access levels across all company platforms to ensure security compliance.
- Operations & Systems Support:** Delivered comprehensive L1–L3 technical support for internal systems, proactively minimizing downtime and escalating critical infrastructure bugs to the IT Manager with strategic system improvement recommendations.
